## GET OUT OF YOUR BUILDING !

Organise your events at transforma bxl, the space for sustainable innovation where your team will get inspired, collaborate and experiment in an eco-friendly environment.

### A SUSTAINABLE BUILDING

We have chosen an 'Eco-dynamic enterprise' labeled building for transforma bxl. We strive to reduce our ecological footprint on a daily basis. Solar panels, organic and fair-trade catering, organic vegetable gardens, maintenance of green spaces without pesticides, rainwater to water the plants... are some of the measures we take in order to be sustainable.

In addition to our private parking, transforma bxl has a bicycle shed and is easily accessible by public transport.

### CHANGE YOUR HABITS!

Getting bored of the same old meeting venues?

Get inspired by our bright, modular rooms with their colourful and recycled interior design.

The 'Innovation Garden' and the 'Co-creation Hall' have been specifically designed for collaborative workshops, creative meetings, cultural activities, team building, conferences and events.

# INNOVATION GARDEN

**81**  
m<sup>2</sup>

**60**  
people seated

## FOR ALL SPACES:

Access to the cafeteria for coffee breaks and lunches

## ORGANIC AND FAIRTRADE CATERING

We work with local partners in order to provide you with catering options made from fresh seasonal ingredients. We also provide delicious brain food based on rich nutrients to allow participants to stay focused all day long.

## TRANSFORMA BXL, THEIR INSPIRATIONAL CHOICE

## INNOVATION IS GOOD. SUSTAINABLE INNOVATION IS BETTER!

Sustainable innovation is our DNA. We help organisations, entrepreneurs and change-agents to turn their projects into viable businesses while having a positive social and environmental impact.

## TAKE YOUR TEAM THROUGH A COLLABORATIVE JOURNEY

Sustainability is often reduced to ecology or to the emergence of new economic business models. Organisations need to also adapt their management practices to become more sustainable in order to ensure their resilience. This is why we co-created the **‘Beehive experiential Journey’** with our experts to guide teams towards a sustainable way of working. This innovation program is divided into 4 practical workshops where experimentation, collaboration and learning are central.

## TAILOR-MADE CONTENT

We don't offer a one size-fits-all program, our versatile team of experts adapt to your organisation's needs, context and challenges. Our job doesn't stop at offering an inspiring and sustainable venue, we can also help you create content and facilitate your team meetings.

Transforma bxl also has a coworking space, private offices, a fabLab... and much more! Don't hesitate to contact us to discover our other services!

## A COMMUNITY OF ENTREPRENEURS, INNOVATORS AND CHANGE-AGENTS!

Much more than a physical space, transforma bxl is a platform that brings together a creative community and provides them with the necessary resources and tools to innovate, transform their ideas into action and drive forward their projects.

Would you like to prioritise sustainability and add deeper meaning to your projects? Innovate and strengthen your business model whilst encouraging your teams to flourish via improved cooperation?
